25 August 2009

ROLL UP, ROLL UP!

Vauxhall specialist Midpoint Garage is on a roll, thanks to its all-new rolling road facility.

Capable of handling cars with up to 500bhp, the freshly-installed rolling road is perfect for almost any two-wheel-drive Vauxhall or Opel.

Aimed at attracting the attention of performance Vauxhall enthusiasts, the rolling road is suitable for engine tuning, remapping and diagnostics. For owners of modified Vauxhalls, a live mapping service is available to fine-tune the car's performance characteristics. And the accurate dynamometer will provide a true reading of their Vauxhall's power and torque figures.

Featuring a large high-velocity fan in a custom-built dyno cell, the rolling road has been specially calibrated in alignment with internationally-respected engine tuning expert EDS Motorsport's equipment in Germany. This ensures every Vauxhall upgrade at Midpoint Garage exactly matches EDS specifications.

Prices for a rolling road session at Midpoint Garage start at £65 (including VAT), while power runs at club-organised rolling road days cost £35 each (including VAT). Please contact Midpoint Garage for an estimate for live mapping on its new rolling road.

Please keep an eye on the MPG website at www.midpointgarage.co.uk for events and news on the superb dyno facility.

MPG is located at 9 Valley Court, Sanderson Way, Middlewich, Cheshire CW10 0GF. Please phone 01606 834598, email info@midpointgarage.co.uk or log on to the website at www.midpointgarage.co.uk for more information.
